ASSAULT WITH A BEER BOTTLE.

Emma Johnson and Amanda Curtis, colored residents of "Boston," Thirty-third Street and the canal, got into a fight yesterday evening about 6 o'clock. As a result the Curtis woman was taken to Georgetown University Hospital to have numerous wounds dressed and the Johnson woman was arrested. Miss Johnson used as a weapon a beer bottle. The charge of "assault with a deadly weapon" was preferred against the Johnson woman.

APPROVED BY OFFICERS.

The principal officers of the United States Navy have approved Secretary Moody's policy of increasing the commissioned grade of the service. "We have too few officers to adequately man our fleet. It is foolish, therefore, to permit the personnel of the service to stand still while the material is expanding rapidly," was the generally expressed opinion of those whose advice Mr. Moody sought.

It is really remarkable how Washington's best dressers look to us for the correct fall styles in Suits, Top Coats, and Overcoats. Then, again, there is a price consideration, of course, as makers we'll save you the middleman's profit, therefore, our \$10 suits are equal to those sold elsewhere at \$15.

PREPARING ANTI-TRUST BILL.

It is likely that an anti-trust bill prepared by Attorney General Knox will be presented to Congress on the first day of the next session by some Administration leader. The President and his advisers, having agreed that the trust question is paramount, the Attorney General has undertaken the work of preparing a bill which, if enacted into law, will prove efficient in restraining combination intent on ruining competition. The speech of Mr. Knox at Pittsburgh is taken as an indication of its character.

PLAN'S FOR ST. ANN'S NEW CHURCH RECTORY

To Be Located on Wisconsin Avenue, Tenleytown.

A second set of plans are now being drawn by Architect Kennedy, of Baltimore, Md., for St. Ann's Church rectory, of Tenleytown. The lowest bid received, under the first plans drawn, was \$9,000. As the church authorities are unwilling to expend but about \$5,000 on the rectory, plans for a less expensive building are being drawn.

The building will be located on the west side of Wisconsin Avenue, just south of the new church.

As soon as the old church rectory is vacated by the pastor the Terre Haute Sisterhood, of Indiana, will begin its contemplated improvements. The order intends to erect a handsome building on the tract recently purchased from the St. Ann's Church authorities for \$20,000, which will be used for educational purposes. The sisterhood will open a branch school there. There is some talk of moving the headquarters of the order from Terre Haute, Ind., to Washington.

CARROLL INSTITUTE'S THIRTIETH BIRTHDAY

Over 300 Members Enjoy an Anniversary Smoker.

Over 300 members of Carroll Institute assembled last night in the large hall of the institution for the smoker arranged in celebration of the thirtieth anniversary of the founding of the organization. Commissioner West arrived before the conclusion of the literary and musical program and made a brief address.

President M. J. Keane, of the institute, reviewed the work of the organization and complimented the members upon the intelligent activity displayed in its advancement. He spoke of the necessity of providing young men with helpful and innocent amusements, and said that the purpose of the institute was to supply this need.

A pleasant feature of the evening in connection with the announcement of the bowling team was the presentation of a handsome medal to Mr. Speck for the best individual average. The presentation was made by Mr. Keane. The medal was the gift of two members of the association.

The committee which arranged the program was composed of E. Newton Bowman, J. Martin McKee, John J. Nolan, George T. Cox, William S. McCarthy, Dr. Charles E. O'Connor and George H. O'Connor.

UPPER COURT SAYS MRS. WEBB'S CLAIM IS JUST

Justice's Award of Damages for Lost Sacque Sustained.

The action of a justice's court in awarding Mrs. Elizabeth G. Webb \$35 damages as the value of a sacque lost on the Philadelphia, Wilmington, and Baltimore Railroad, while changing cars at Wilmington was yesterday sustained by the Supreme Court of the District, to which body an appeal was taken by the railroad company.

Mrs. Webb testified that she took passage from Philadelphia on one of the company's through trains for Washington. At Wilmington she was informed by the brakeman that the car in which she was riding would be detached, and he assisted her in hurriedly removing her belongings to a forward car. After the train was again in motion she discovered that her sacque was missing. It was never returned to her, and the company refused to recognize her claim for damages.

PLANS FOR BIG HOTEL TO REPLACE THE LAWRENCE

Architects Ask for Decision as to Lawful Height.

Plans have been formed for the erection of a large hotel on the site of the present Hotel Lawrence.

The property was acquired a few months ago by several capitalists associated with Robert Portner. They have employed Didden & Sons, architects, to make general plans for the building, and these are now being worked out.

Incidentally the height of the proposed building has become an important question. By strict application of the building regulations the structure could be only about ninety feet high, fronting as it does on E Street. But at the point named E Street merges into Pennsylvania Avenue, and the thoroughfare is in reality much wider there than at any other point. The architects are of the opinion that a building 120 feet high should be allowed. The matter is before the District Commissioners for decision.

The plans, on account of this and other reasons, are yet in a tentative stage, but it is thought probable that next spring active work will begin on a new and finely appointed hotel on the site of the Lawrence.
